ROBOTIC DIP CELL

Expand Capability

Available in Single or Double Module

Single: one slurry tank and one sander, perfect for back up coats.

Double: two slurry tanks and two sanders, ideal for prime/intermediate, or intermediate/back up sequences.

Offered as a stand alone skid mounted unit, the Dip Mate is ready to use straight out of the box.

Expand Capacity

Additional cells can be added to increase volume capacity.

Add-on Options

Maximise your DIP MATE's potential. Available add-ons include;

- Loading station
- Vacuum stucco loader
- Slurry height sensor
- Conveyor
- Air blow-off
- 80lbs tree capacity
